About Me

I am a **GoHighLevel (GHL), Ai Automation Specialist & Software Engineer** with over **3+ years of hands-on experience** helping businesses streamline operations, automate workflows, and scale efficiently. I have successfully collaborated with **35+ clients**, delivered **175+ projects**, and developed **24+ GoHighLevel websites and funnels**, along with numerous custom web solutions.

My expertise includes **CRM setup and optimization, advanced workflow automation, funnel and website development, API and webhook integrations, payment system configuration, and custom-coded solutions using React, JavaScript, HTML, and CSS**. I specialize in transforming manual, time-consuming processes into seamless automated systems that improve productivity, enhance customer experiences, and drive business growth.

Over the years, I have partnered with **coaches, marketing agencies, real estate businesses, eCommerce brands, and dental clinics**, providing end-to-end technology solutions tailored to their unique goals. Whether it's building a high-converting funnel, integrating third-party tools, or designing a fully automated client journey, I focus on delivering scalable solutions that create measurable business impact.

Marketing Agency – CRM & Automation System

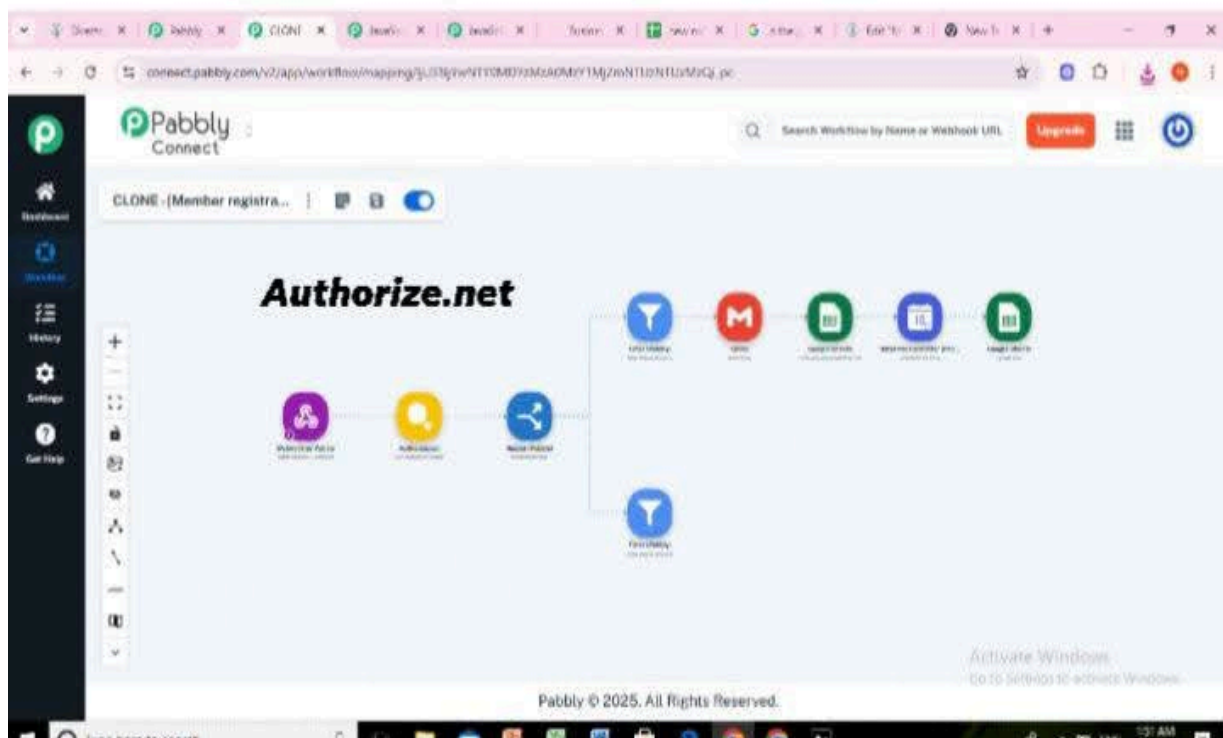

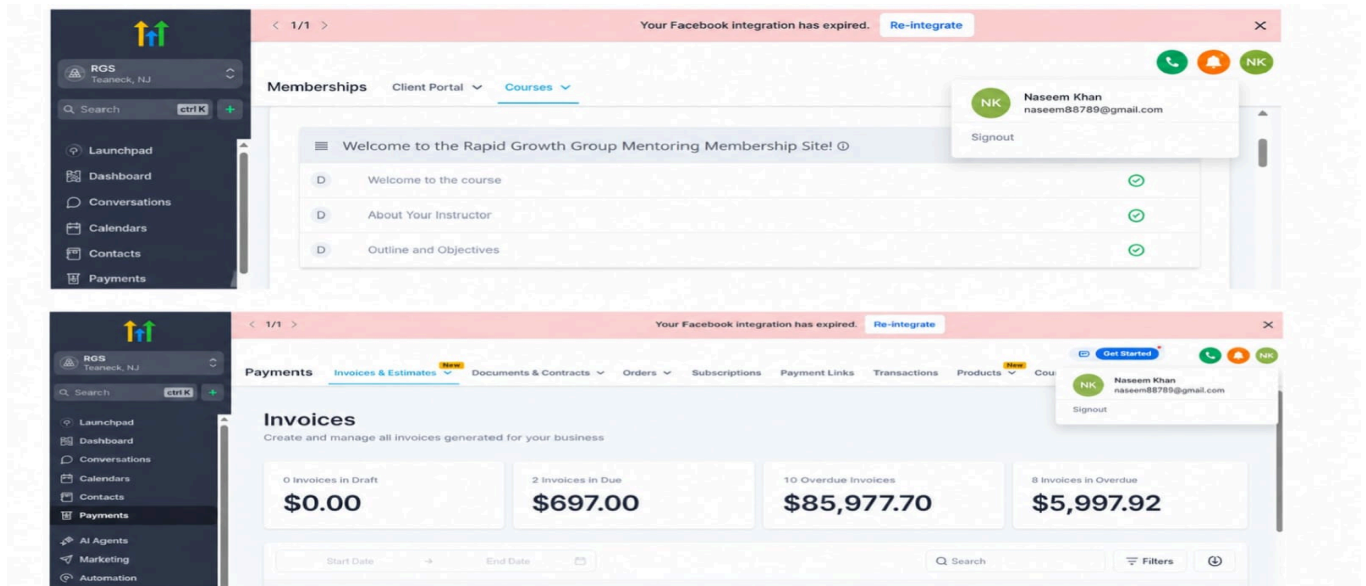

I Designed and optimized automated systems that eliminated repetitive tasks and improved operational efficiency for a marketing agency. By integrating CRM workflows, lead nurturing, communication automation, and client onboarding processes, Payment Systems the platform enabled faster response times, better customer experiences, and a more organized sales process from lead capture to conversion.

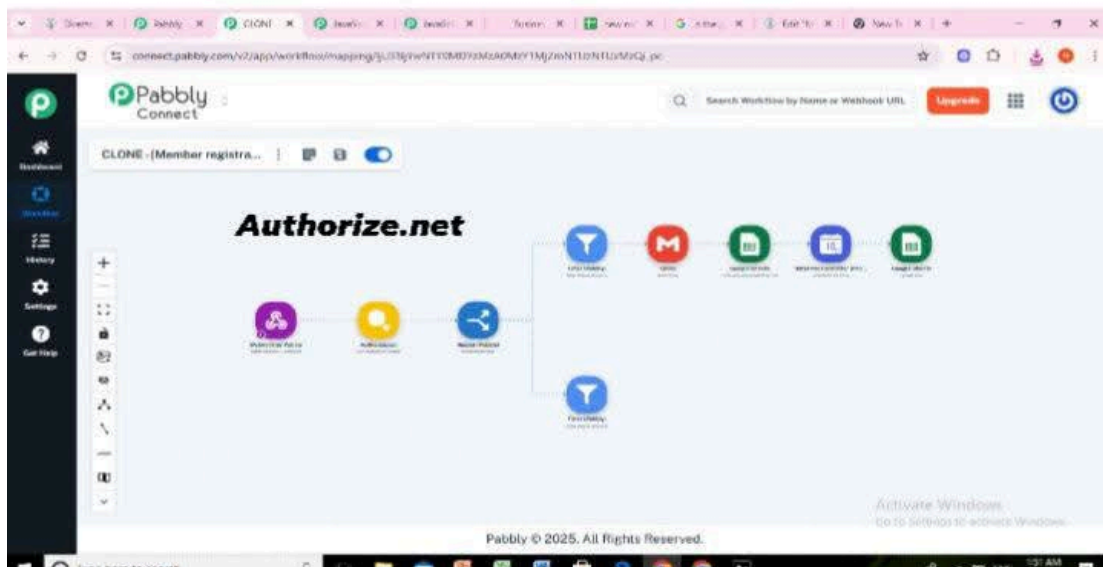

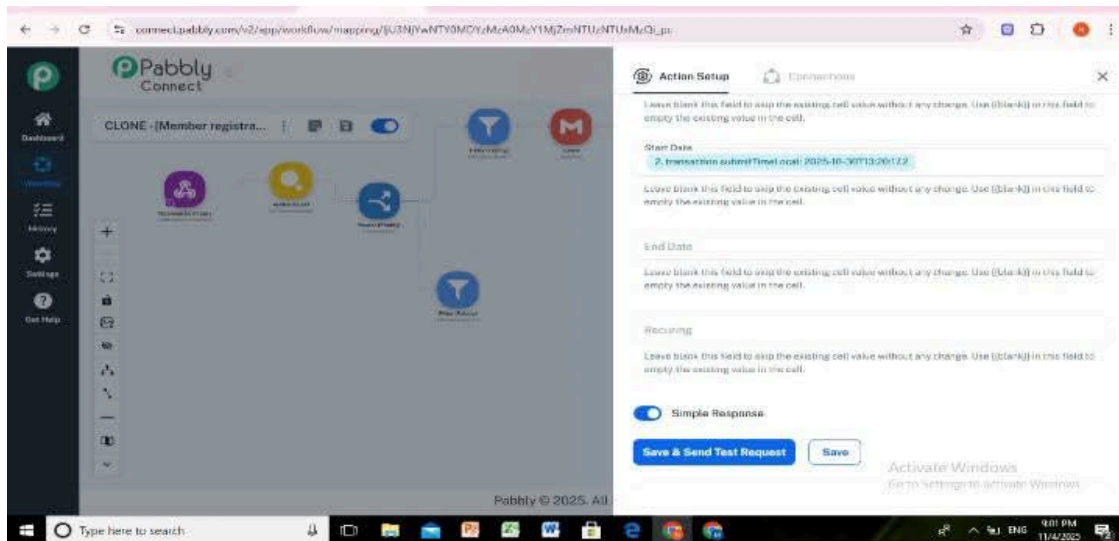

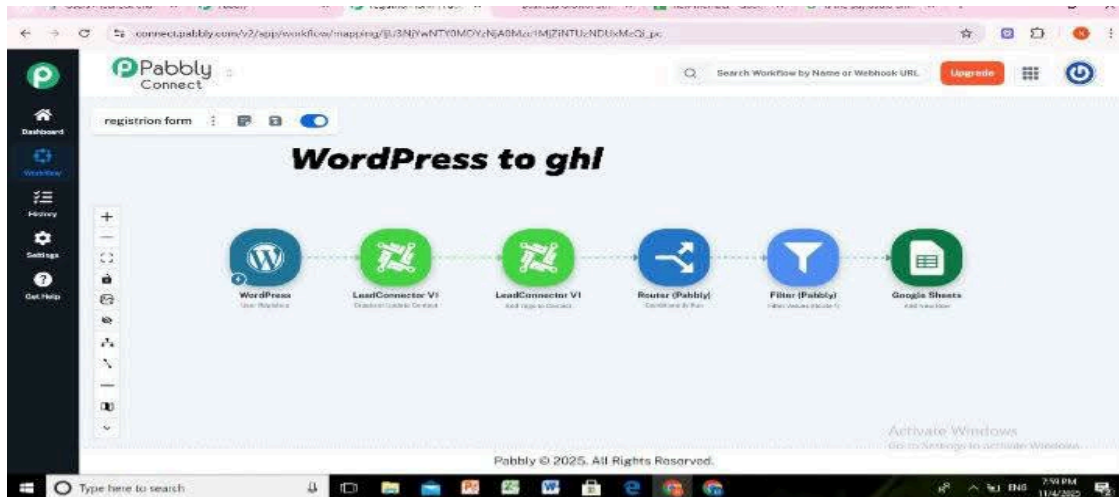

The screenshot shows a web browser window with the URL `app.gohighlevel.com/v2/location/8NgWUs2AlvuHMfz7GF5i/form-builder-v2/sjRdvOaK3fwuJeN7baQY`. The page title is "MARKETING HUB - PREMIUM". The form contains the following fields: "Company Name", "First Name", "Last Name", "Email", "Phone", and "Get Started Today!". Below the "Get Started Today!" field, there is a section for "MNGR Marketing Hub - Premium" with a price of "\$299/month" and a "Quantity" field. At the bottom, there is a "16 digit card number" field, a "MM / YY" field, and a "CVC" field. A checkbox at the bottom states "By signing up, you agree to MNGR's Terms of Service and Privacy Policy".

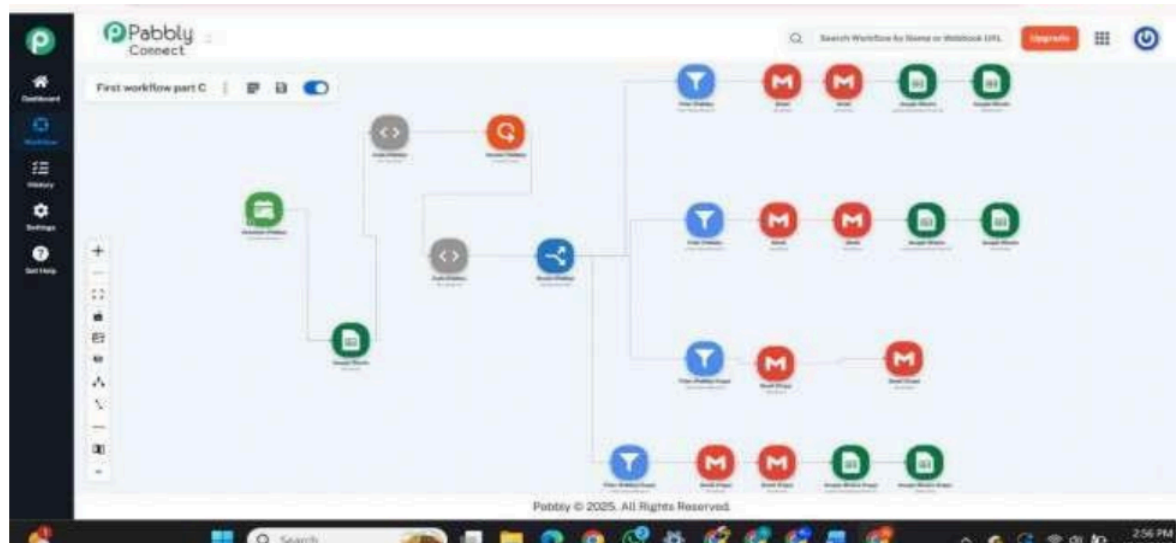

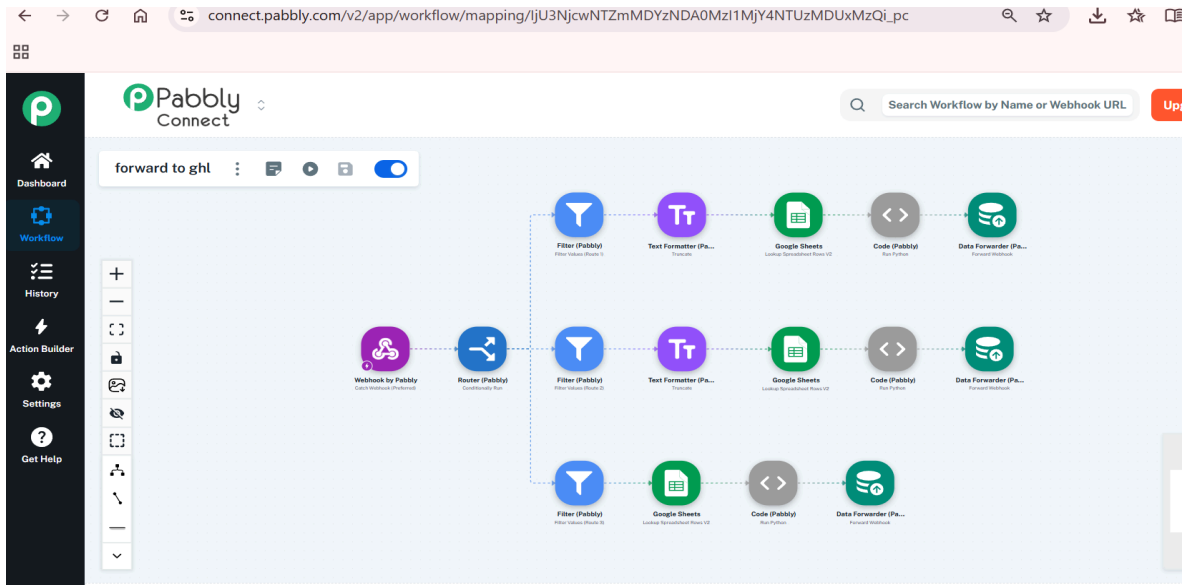

Coaching Business – Client Acquisition & Automation

Built a complete GoHighLevel ecosystem for a coaching business to streamline client acquisition, automate follow-ups, and simplify appointment scheduling. The solution included high-converting funnels, CRM implementation, workflow automation, email and SMS campaigns, client onboarding, WordPress integration, and seamless third-party platform connections creating a unified system that delivered a smooth client journey from first inquiry to program enrollment.

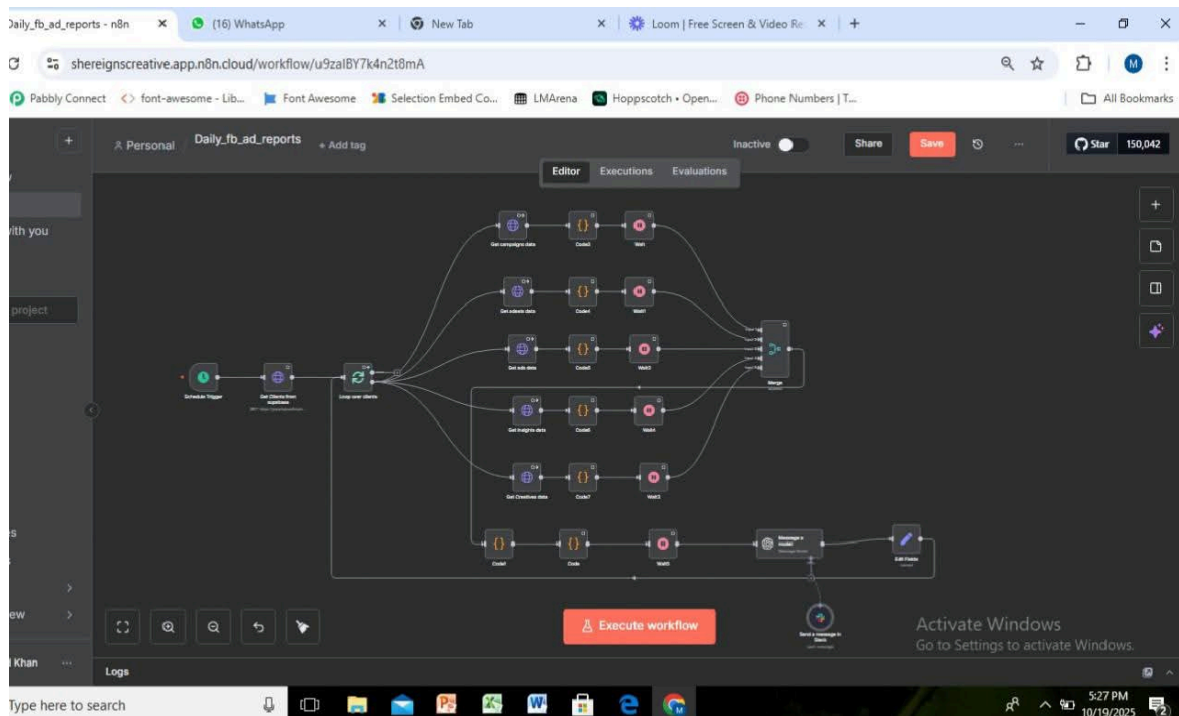

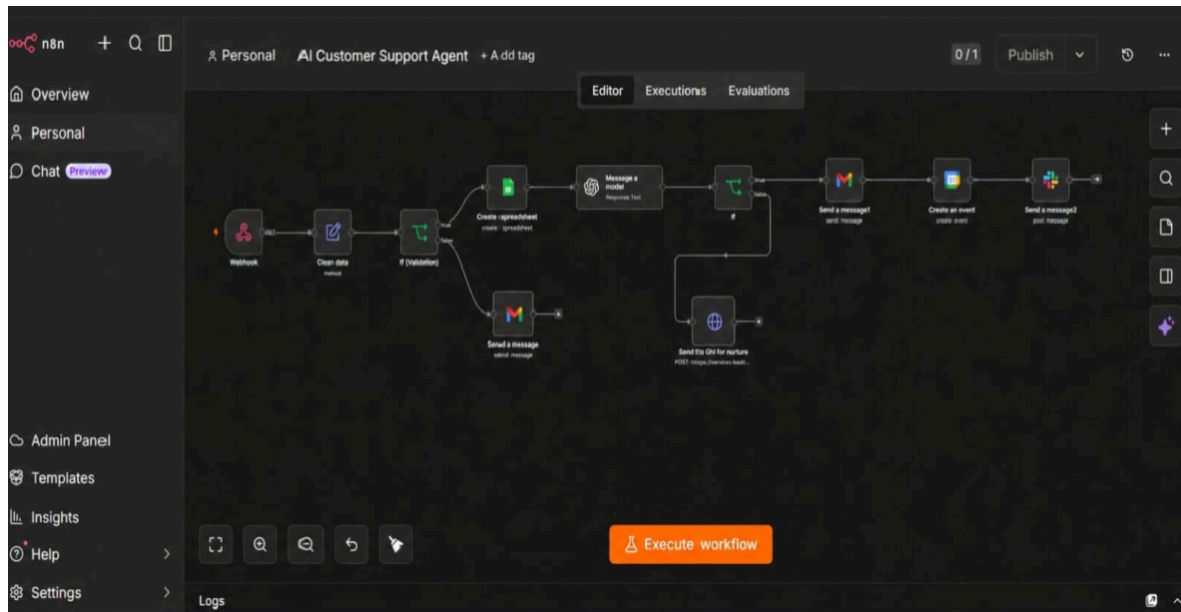

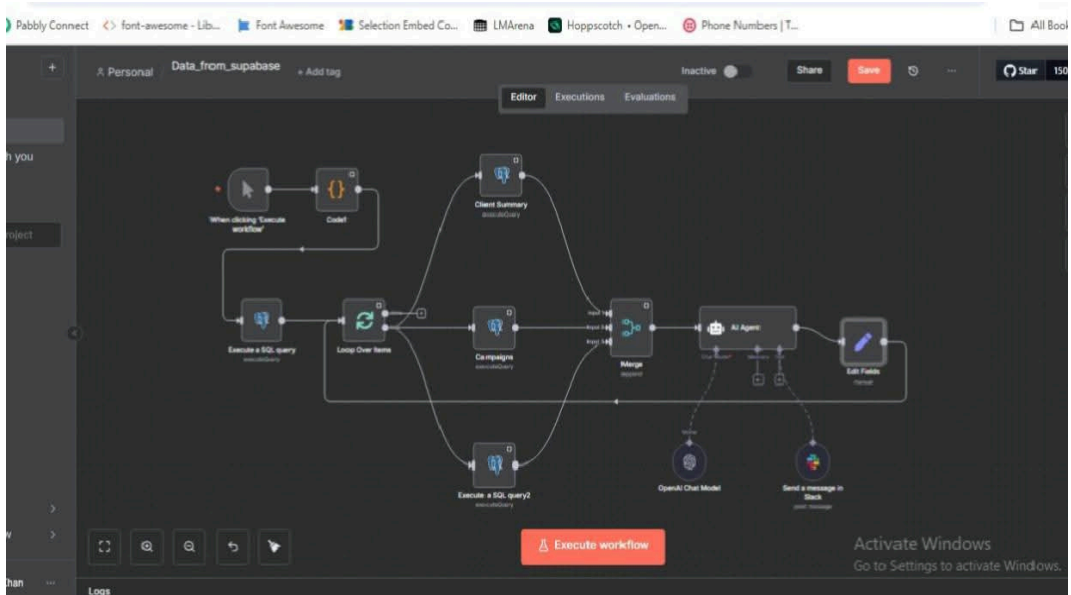

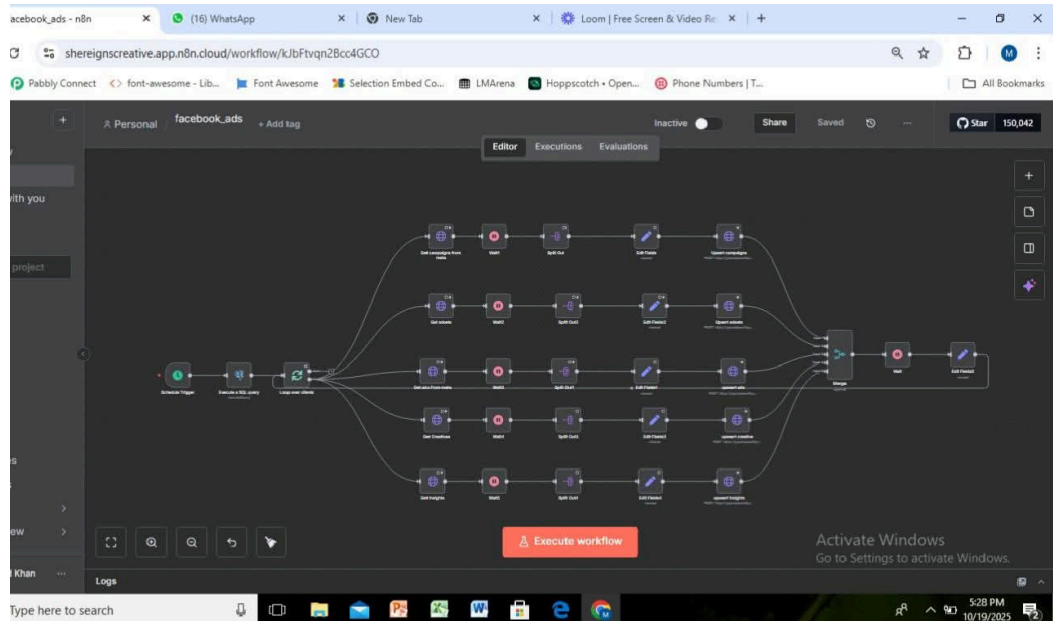

AI-Driven Campaign Analytics & Client Reporting

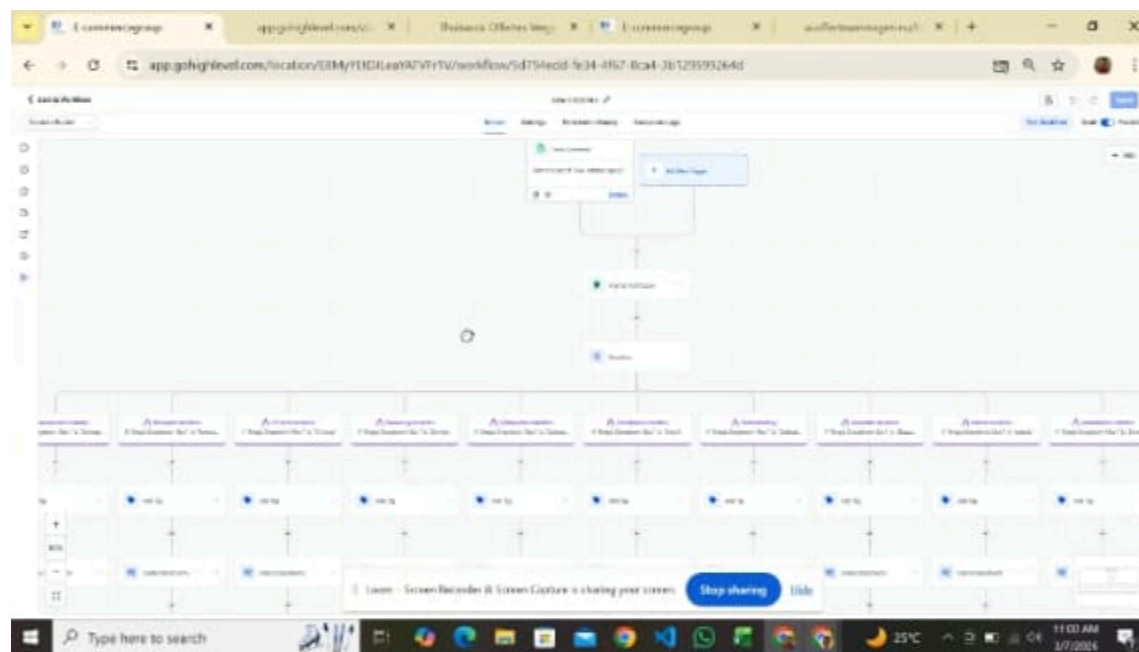

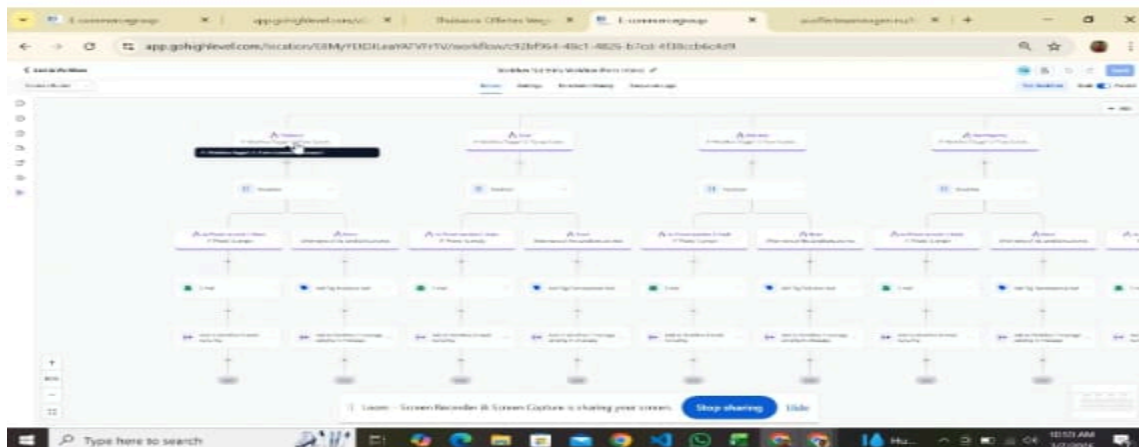

Build a fully automated reporting ecosystem that integrates **Facebook Ads**, **n8n**, **Supabase**, **AI analysis**, and **Slack** into one seamless workflow. By collecting, analyzing, and delivering personalized campaign insights daily, the system reduced manual reporting, improved transparency, and empowered clients to make data-driven marketing decisions with confidence.

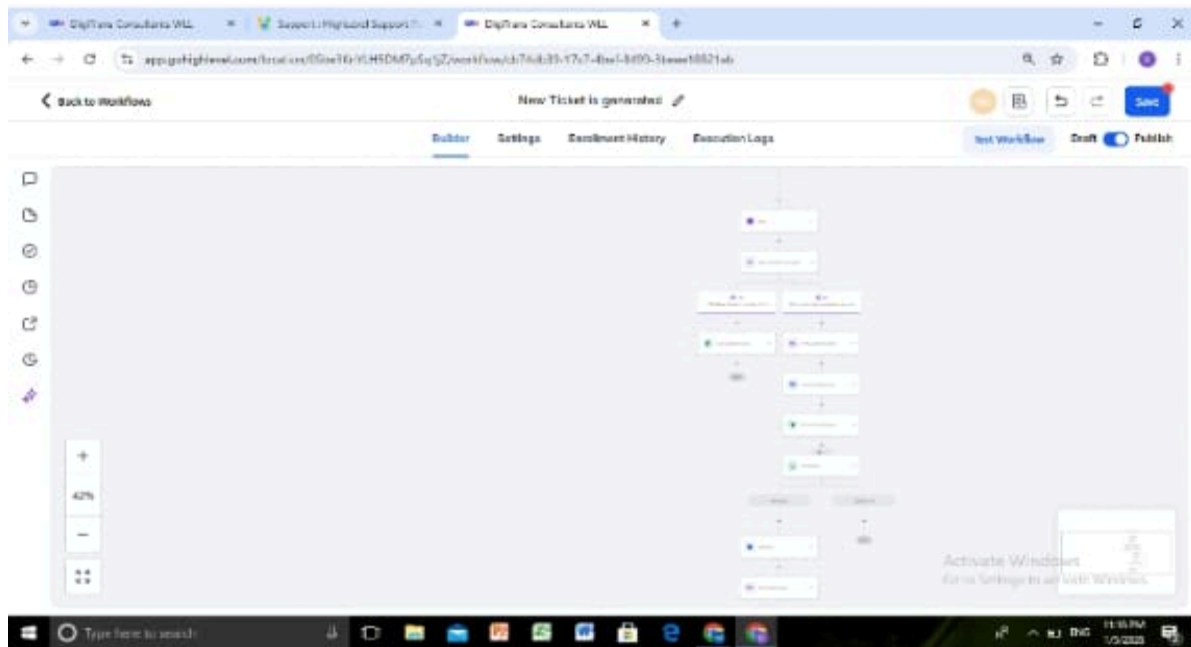

Solar & Real Estate – Business Operations Platform

Built a centralized business platform that unified customer management, communication, scheduling, and sales operations into one streamlined system. By automating repetitive processes and connecting critical business tools, the solution improved operational efficiency and created a consistent customer experience from inquiry to closing.

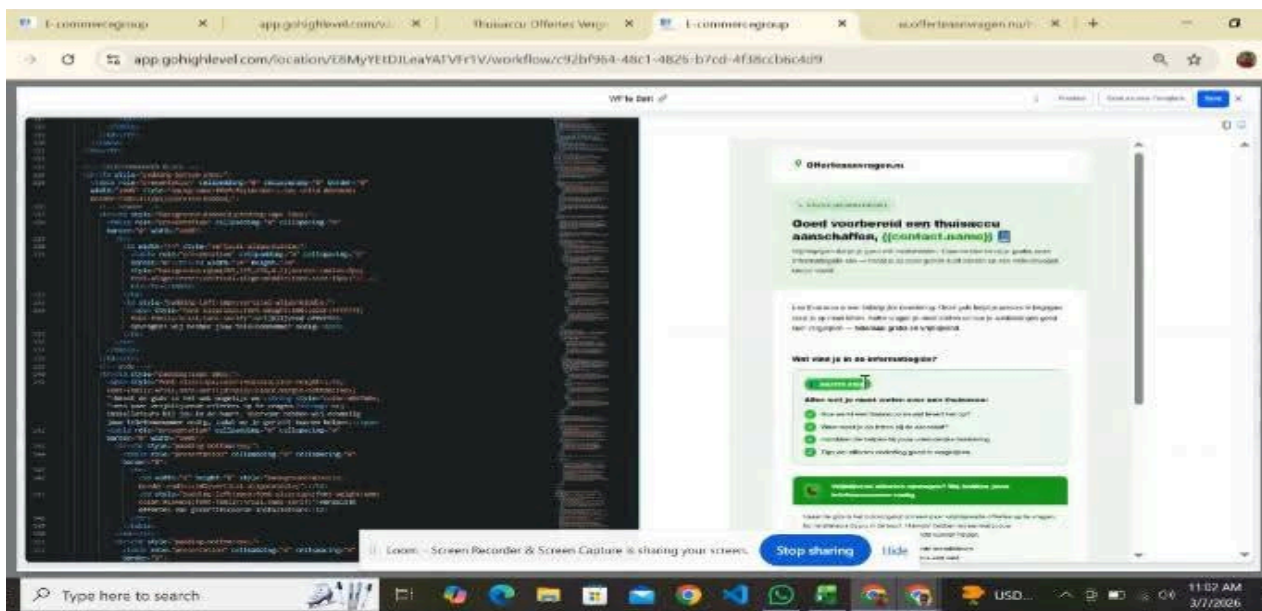

Workflow Builder interface for a communication stage. The main canvas shows a flowchart with three parallel paths, each starting with a 'Trigger' event followed by a 'Send' action. The right sidebar contains configuration options for the selected 'Send' action, including 'To' (Email), 'From' (Company Name), and 'Subject'. A 'Test Workflow' button is visible at the bottom right. The interface includes a top navigation bar with 'Back to Workflows' and 'communication stages' tabs, and a bottom taskbar with various application icons.
